PROFESSIONAL SUMMARY

PHP Laravel Backend Developer with **3+** years of experience building web applications and **RESTful APIs** using **Laravel, PHP, MySQL**, and **Eloquent ORM**. Experienced in **authentication, authorization**, Laravel **Sanctum, JWT, API development, Repository Pattern, Service Layer, Queues, and database-driven applications**.

TECHNICAL SKILLS

Laravel & PHP

- Laravel • REST APIs • Eloquent ORM
- Sanctum • JWT • Authentication • Authorization • Middleware • Spatie Permission • Policies
- Form Requests • Validation • API Resources
- Dependency Injection • Service Container • Service Providers • Queues • Caching • Events & Listeners • Laravel Scheduler
- Database Transactions • Migrations • Query Builder • Seeders & Factories
- Livewire • Notifications • Mail

Backend

- Laravel • PHP • Node.js

Languages

- PHP • SQL • C++

Tools

Git • GitHub • Composer • NPM • Postman • Linux • XAMPP

Database

- MySQL • SQL Server • Database Design • Relationships • Foreign Keys
- Indexing • Query Optimization • Normalization
- Query Builder

ARCHITECTURE & DESIGN

- Repository Pattern • Service Layer / Service Classes • SOLID Principles • Design Patterns

Frontend

- Vue.js • Quasar • JavaScript • HTML & CSS • AJAX • Bootstrap • Angular

PROFESSIONAL EXPERIENCE

Freelancing, Back-End Developer

Present
Online

VPSie "Cloud Enabler", Full Stack Web Developer Node.js / Vue.js(Quasar.js)

01/2025 – 09/2025

- Delivered 20+ RESTful APIs and backend services using Node.js, supporting core application functionality and data integration.
- Created 10+ responsive dashboard views with Quasar Framework, supporting core application workflows and data visualization.

Remotely

- Architected and maintained 15+ database models using Sequelize ORM, supporting structured data management and application relationships.

Acwad Company, Turkish Company

10/2023 – 05/2024
Online

- PHP/laravel (MVC)
- SQL/Ms-server/phpmyadmin & Database creation
- HTML5/CSS3-Javascript -Ajax
- Github

PROJECTS

Borkan Management System ☺, — Laravel | Freelancer Project

10/2025 – 12/2025

- **Optimized** a Laravel management system with multi-form submission and admin approval workflows, generating PDF versions of **16 official forms** to streamline document preparation and reduce manual processing.
- **Resolved** technical issues across form submission and PDF generation workflows, delivering the project within a **1-month development timeline**.

Sales Representative Management System ☺, — Laravel MVC

03/2024 – 05/2024

- Assembled a bilingual Laravel MVC sales management system supporting 2 languages—Arabic and English—across 6 business workflows: product, customer, supplier, invoice, returns, and reporting.
- Integrated multi-currency payment functionality supporting 2 currencies—USD and EGP—alongside representative account management and RESTful APIs using Laravel and Eloquent ORM.

Medical Supplies Management System ☺, — Laravel MVC

11/2023

- Built a Laravel-based medical supplies management system covering 6 core operational areas: **inventory, supplier, customer, purchase invoice, sales invoice, and personnel management**.
- **Streamlined** reporting and online invoice workflows across 2 invoice processes (purchase and sales)

Yamama Project ☺, — Laravel MVC

09/2023 – 10/2023

- Enhanced a Laravel MVC application by adding 2 core capabilities: account management and reporting functionality.
- Supported a poultry export management application handling operations across 5 countries and providing statistical reporting.
- Leveraged the existing API to connect application workflows and facilitate data exchange across core operations.

Invoice Management System, — Laravel MVC

07/2023

- Constructed a Laravel invoice management system with 6 business features, including authentication, email notifications, payment status tracking, file uploads, printing, and Excel export.
- Connected Laravel and Eloquent ORM with external API services to support invoice processing and synchronization across application workflows.

Charitable Organization Management System ☺, — Laravel MVC

01/2023

- **Engineered** a multi-vendor Laravel charity management system supporting **user groups: beneficiaries, donors, and merchants**, with RESTful APIs and role-based access control.

MUTE, — Discover Aswan | Laravel MVC

12/2022 – 03/2023

- MUTE (Discover Aswan), a Laravel MVC web application focused on 2 core travel activities: trip planning and discovering local attractions in Aswan.
- Implemented backend functionality using PHP and Laravel MVC, supporting the application's core travel-planning and discovery workflows.
- Analyzed application requirements and resolved development issues across the application's core backend workflows.

LapTop,

10/2022

*Developed a front-end project using HTML, CSS, JavaScript, and web animations.***Booking & Hosting, — Laravel MVC**

09/2022

- Built a Laravel MVC apartment rental and booking platform connecting hosts with international visitors and supporting the platform's hosting workflow.
- Developed backend workflows for listing management, booking processing, and reservation handling within the Laravel application.

EDUCATION

Bachelor's degree in the Faculty of Science, Department of Mathematics

06/2026

Bachelor's degree in the Faculty of Education, General Mathematics, A+

09/2018 – 05/2022

Psychological Counseling Diploma in Education, B

08/2022 – 03/2023

CERTIFICATES

Software Development Fundamentals. Information Technology Institute (ITI) | Aswan Branch, Aswan, Egypt | Intensive Code Camp (3 month program)

- 08/2022-11/2022

Graduation Project: Booking & Hosting

Full Stack Using PHP (Laravel - Angular). Information Technology Institute (ITI) | Aswan Branch, Aswan, Egypt | Intensive Code Camp (3 month program)

- 11/2022-03/2023
